SITUATION IN THE COAL STRIKE GRAVE

Government Will Ask Court to Rescind the Strike Order

LEADERS FACE JAIL

Failure to Obey Mandate of Tribunal Will Make Them Guilty of Contempt Says U. S. Officials.

When the coal strike injunction case comes up at Indianapolis Saturday the government will ask that the court command the leaders of the miners to rescind the strike order.

This statement, made last night at the Department of Justice as a positive refutation of reports that the government was planning to ask for a postponement of the injunction hearing, places the situation in a far graver light than has heretofore been shown.

It is obvious that if Judge Anderson orders John L. Lewis and the other eighty-three defendants in the case to cancel the strike order, they will be in contempt of court if they do not obey the court order, and in imminent danger of being sent to jail.

Labor leaders say that Mr. Lewis and his associates in the higher councils of the United Mine Workers would not have the power to cancel the strike order because they were simply the instruments in carrying out the will of the Cleveland convention which decided upon the strike.

But this passive attitude, if assumed by the miners' leaders would not save them in the face of a court order.

BIRTHDAY PARTY

Miss Kathryn Barley entertained a number of her friends Tuesday evening at the residence of her grandparents, Mr. and Mrs. George S. Finch in Queen street, the occasion being the celebration of the seventeenth recurring anniversary of her birth.

Those present included Misses Beatrice and Hazel Norcross, Lula Hicks, Margaret and Etta Robey, Annie Tanner, Melvina Finnell, Madeline, Kathryn and Margaret Barley, Mrs. Robey, Mrs. Mamie Mudd, Mrs. Charles Cook, Mrs. J. M. Barley, and Mrs. William Nolan, and Messrs. Danny McFaddin, Austin Greenwood, Millard Finnell, Willard and Minard Robey, George and Lawrence Barley, Charles Cook, William Nolan, Mr. Ward and Mr. Callahan.

Following games refreshments were served and all spent a delightful evening.

LIGHTLESS NIGHTS MAY RETURN

The coal strike threatens to put the lights out.

Dr. Garfield, fuel administrator, today is making plans for putting into effect an order for "lightless nights" if the coal strike is not brought to an end shortly.

On November 15, 1917, Dr. Garfield issued a similar order, prohibiting the use of coal for power for illuminating or advertising purposes on certain nights.

Dr. Garfield stated that the "lightless nights" during the war saved approximately 500,000 tons of coal in a year.

BARRETT TO BE LEADER

Organization Will be Chamber of Commerce Between North And South America

Official Washington last night regarded as highly significant the announcement that John Barrett, after fourteen years of continuous service, would retire as director general of the Pan American Union, on June 30, 1920, to become president of a "great new, unofficial pan American organization."

Mr. Barrett declines to speak of the new organization, except to say that it is "backed by the leading men of all the American countries," and that it will be "the most practical and comprehensive international combination for the development of international commerce and good will that has ever been organized and undertaken."

The new organization is expected to be a sort of Chamber of Commerce between North and South America.

JAIL DEFIANT DOMINIE

Former Minister Gets 30 Days For Contempt in Utica Strike

Utica, N. Y., Nov. 6.—Paul S. Blanchard, former congregational minister of Boston and Tampa, Fla., was ordered to pay a fine of $100 and spend 30 days in jail by Justice Crouch in Supreme Court yesterday The Judge held Blanchard, an organizer of the Amalgamated Textile Workers, who have been on strike for 10 weeks, guilty of contempt of court for violation of an injunction order restraining the strikers from picketing one of the mills.

Blanchard was charged with inviting the strikers to picket with a view to intimidate, after such proceedings had been restrained by Court order.

In his order, Justice Crouch said: "Within certain limits, it is not unlawful to picket, but the object of the picket as advised by Blanchard and actually used was not by argument or persuasion to lead others not to take the place of strikers, but it was to frighten and intimidate."

Although not a lawyer, Blanchard conducted his own case, and asserted he had not intended to disobey the Court order.

RATIFICATION IS OVERTURNED

Ohio's Probable Failure May Result in Long Wet Spell

TABLES ARE TURNED

About Six Thousand Majority Against Prohibition at Tuesday's Election In Ohio.

Cleveland, Nov. 7.—Complete unofficial returns from eighty-four of the eighty-eight counties today indidated the "wets" had won two of the four "wet" and "dry" issues voted on in Ohio Tuesday.

Ratification of national prohibition by the Ohio Legislature was defeated by a majority of 16,000 in the counties received. The Crabbe enforcement act was dragging behind by a "wet" majority of aproximately 29,000.

The effort to repeal State-wide prohibition failed in those counties by a dry majority of 30,000 and the effort to legalize 2.75 per cent beer was voted down by 20,000 majority. The count in the four remaining counties may change these figures somewhat, but they cannot change results, both wets and drys agreed.

Wets believe that in knocking out the Federal amendment constitutional prohibition may be deferred for at least one year. They argue it will be necesary for another State to ratify national prohibition before the measure can be made effective.

Columbus, Ohio, Nov. 7.—The ratification of the Federal prohibition amendment by the Ohio State Legislature was overturned at the polls last Tuesday, on the basis of complete official and unofficial returns at hand yesterday.

Complete official and unofficial returns gave a total of 474,522 against, and 468,768 for ratification.

The Crabbe prohibition enforcement State law on the same figures was defeated by more than 25,000 votes.

If the final figures show the same result, the "wets" claim that the proclamation of Acting Secretary of State Polk, last January, declaring the national amendment ratified by thirty-six States, was illegal, because Ohio was included in the number.

If his original proclamation is void, then National prohibition will not come into effect for a year from the date of its issuance.

Fifteen other States in the Union have similar referendum provisions.

In the United States Supreme Court the case is expected to turn on the meaning of the Federal Constitution when it said that the amendments shall be effective when ratified by the "legislatures" of the three-fourths of the States.

The situation in the District of Columbia or in the States that have voted dry will not be changed.

ATTACKS UPON LEADERS

Attorney General Palmer States Plain Facts at a Conference Concerning H. C. L.

Harrisburg, Pa., Nov. 7.—Sweeping attacks upon leaders in the coal strike and upon James H Maurer, president of the Pennsylvania State Federation of Labor, were made by A. Mitchell Palmer, Attorney General for the United States, yesterday at a conference called here by Governor Sproul to discuss plans to reduce the high cost of living.

"It will be a glad day for labor in America when men of the Maurer-type lose their influence in its councils Until that day comes we can give the honest patriotic working men of the nation no greater help than by preventing the Maurers and Fosters from accomplishing their thinly concealed revolutionary plans, declared the Attorney General.

"This is a critical hour in the life of our country," said Mr. Palmer. "The test is being made whether the Government has the right and the power to protect all the people from a national disaster which would be inflicted upon them by a single group for its own advantage."

Every one of the 300 mayors, burgesses, district atterneys and Federal prosecutors throughout the State came primed to talk and there was no limit to their range of subjects.

EASY MONEY MAN ADOPTS OLD STUNT

Takes Dollar Bills and Makes Tens Out of Them

NEAT PIECE OF WORK

Camouflaged Bill Discovered Today at Bank Where it Was Deposited—Report Made to U. S. Treasury.

Making tens out of ones is the art some enterprising Alexandrian just now is engaged in. In other words the guilty party is taking Uncle Sam's perfectly good one dollar bills and concerting them into $10 bills.

The deception was discovered this morning when a victim of the clever camouflage presented the supposed $10 with his usual morning bank deposit.

The counterfeiter it was admitted had done a rather clever piece of work which while it might not pass the average banker it certainly would fool the average busy merchant.

The master camouflager had taken the edges of four ten dollar bills and cut off a sufficient part from each one to make the figure naught and to all intents and purposes had produced a perfectly good ten dollar bill by using a little glue to help complete the deception.

The bank officials have made a report of the work of the counterfeiter and efforts probably will be made by the Secret Service men to chase the frenzied financier down.

WILLED TO ANOTHER WOMAN

New York, Nov. 7.—Mrs. Milla A. Shonts yesterday was appointed by Surrogate Fowler administratrix of the estate of her husband, Theodore P. Shonts, for twelve years president of the Interborough Rapid Transit Company.

Mrs. Shonts' application for the appointment set forth that her husband in 1904 showed her a will, naming her as sole beneficary. She explained the cause of her estrangement from her husband in 1911. She said that she believes Mr. Shonts, on his death bed, attempted to draw up another will in which he disinherited her and their two daughters and left his fortune to "a certain woman." Such a will has not been filed for probate.

Mrs. Shonts, in her petition, said she had made diligent search for the will her husband showed her in 1904 but without success; nor has she any information as to its whereabouts, if it still exists.

BOUND AND BLEEDING

Officers Arrest Nephew of Samuel Beck on Charge of Committing Murderous Assault

Danville, Va., Nov. 7.—H. G. Easeley, aged 26, a former soldier who saw service in France, was lodged in jail here early yesterday morning after being arrested at Stony Mills where he is charged with making a murderous assault upon his uncle, Samuel Beck, aged 70, a bachelor and a wheelright, who was found Wednesday night, the victim of a brutal assault. Easeley admits he tried to negotiate a loan with his uncle, but that he was refused, this making him angry.

Children returning from a husking bee Wednesday night heard groans coming from the old man's home and believing him to be ill they tried the door, but finding it locked crawled through a window and found Beck tied hand and foot lying on the floor in a pool of blood suffering from a bad wound in the head. Nearby lay a piece of iron pipe. Going to another room to secure cloths, they found Easeley cowering. The alarm was given and Easeley was arrested.

PAY OF MINERS

Many people in normal times while house-bound by blizzards ensconce themselves before glowing stoves and watch the blue flames dance from the coals. Thoughtful ones often fall into soliloquies concerning the labor and danger in unearthing the combustible and bringing it to the surface. Probably some mine disaster may at such times be still fresh in their minds, and they have not begrudged the wages paid men who work "down in the coal mines far beneath the ground."

But under present conditions they are receiving as much pay as locomotive engineers and others who risk their lives in order to procure a living for themselves and their families.

Striking figures were yesterday submitted by officials of two coal companies of Cumberland, Md., in sworn statements to combat claims of officials and miners' unions that miners have not been making a living wage. They show that in one month one miner drew $716.40.

John L. Maust, secretary of the Knob Coal Company, Morgantown, submitted a sworn list showing the average miner's pay for October, 1919. The lowest check was $194.30, the highest $344.64. Others were for $284.41, $283.08, $319.16 and $299.42.

The amounts given were made by miners working 136 hours a month based on 27 working days; average working time for each day, five hours. The rest of the time was lost on account of poor car supply.

Thomas Taylor, secretary of the Hartman Run Coal Company, Morgantown, submitted the figures of the smi-monthly pay roll for three months in 1918, appertaining to Mine No. 7, as follows:

September, first half, $338.40; second half, $378; total, $716.40. October, first half, $287; second half, $376.25; toal, $663.25. November, first half, $337.75; second half, $376.25; total, $663.25. No earnings of one man for three months aggregating $1,980.91. Taylor makes oath as to the correctness of these figures before Harry Sanders, notary public.

COCKS THAT CROW TOO SOON

Viewed through the spectacles of prohibitionists, the result of Tuesday's election was a tidal wave in the interests of the drys. Ohio, it was supposed, had given 75,000 majority for the dry ticket. Later returns however, show that prohibition lost out in that state. Kentucky snowed under the dry ticket and the Governor-elect of New Jersey announces that he will do everything legal to bring to naught the efforts of the dry faction in that state.

About this time three years ago Hughes, the republican candidate for President against Woodrow Wilson, supposed he was the choice of a majority of the voters. While he was receiving the congratulations of his family and friends and dreaming of his policies news was flashed over the country that Mr. Wilson had been chosen to succeed himself.

Some cocks are prone to crow too soon. Twenty years ago the late Admiral Dewey after the battle of Manila Bay took it for granted that he would be the choice of the country for President at the next election. He was a good naval officer and a man of nerve, but he lacked apprenticeship in the school of politics. He made an unfortunate utterance while the Presidential bee was buzzing in his net, thereby casting all the fat into the fire. His candidacy soon evaporated, and he was barely mentioned in the nominating convention. "Puck," a comic periodical of that day, in a cartoon represented the late admiral in the shape of a pugnacious rooster. One line under the picture told the story—"The Cock that Crowed Too Soon."

THE SOCIAL UNREST

While a large section of our country is convulsed by strikes and other issues, it has been a subject of pride to Virginians to know that the Old Dominion has been immune. On last Tuesday the state voted to continue in its place in the democratic column. We had not been inflicted by labor's discontent, and apart from certain close contests for local positions here and there in the state, nothing had occurred to trouble the waters. Hence we regretted to read today that a guard surrounds the court house in Cumberland county to prevent rival factions from carrying out alleged threats. The guard was sent from Richmond when Judge Hundley appealed to the Richmond police department. Police officers, plain clothes men and a number of deputy sheriffs were rushed to the scene.

According to information from Cumberland, rival factions in Tuesday's election have been on the verge of participating a riot ever since a few days before the election took place. R. O. Garrett, formerly of King William county, and C. W. Dickinson, Jr., were candidates for clerk of court. The latter is a resident of Cartersville. The court is said to have shown Garrett the winner by twenty votes. Threats are alleged to have been made and the court learned that citizens were arming themselves.

It is earnestly hoped this cloud will soon blow over.

LONGSHOREMEN'S STRIKE

The New York longshoremen, after a strike of four weeks, have decided to return to work at the old rate of pay, on Mayor Hylan's promise that he will try to get the National Adjustment Commission to grant a rehearing in their case. The commission, before the strike allowed them 70 cents an hour and $1.10 for overtime, but they refused to accept it, and have been drawing no pay at all for a month past. Now they will get 65 cents an hour and $1 for overtime, unless the commission reverses itself and grants the rate for which they struck.

In the four weeks they have been idle they have lost far more than they will get back in a long time from a higher schedule, if that should be granted, which is problematical. They have inflicted a positive financial loss on themselves besides their loss of standing before the public. The loss to trade and business is estimated at from twenty-five million to forty million. Altogether, the longshoremen have furnished a convincing illustration of the unprofitableness of striking first and arbitrating afterward. —(Baltimore Sun.

BOSSISM IN LABOR UNIONS

The curse of our American political system is bossism. Theoretically we have government by the people. Practically we have government by a few powerful individuals. This is especially true in our own conduct of city affairs. It is due to our own neglect. We have a Constitution and laws under which we can all participate in government. We neglect our right to do this. We neglect the initiative to a few men who make a business of politics. They pick our candidates. They do our thinking. They make our laws. We do their bidding. And in bad government we suffer the consequences.

Union labor is suffering from the same ailment that afflicts our political system. The average union man is patriotic. He has no "Red" leanings. He has no desire to bring about a political revolution. He wants a just wage and fair working conditions. To get these he joined the union. By so doing he acquired power to take an active part in shaping its policies. But he neglects to exercise this power. He delegates it to others. He does not attend the union meetings. He leaves everything to the leaders. They are to the unions what bosses are in politics. They do the thinking for supine followers. Their bidding is unquestionably obeyed. The results of tolerating bossism are as disastrous in labor circles as in politics.—(Philadelphia Record.

MAY FIGHT VOTE

Legality of Election for City Manager Government in Lynchburg Questioned

Lynchburg, Va., Nov. 7.—Belief is expressed that the election here Tuesday, by which the city manager form of government, with a council of five members, was adopted by a plurality of 340 in a vote of 1,208, will be contested when the Circuit Court comes to make an order directing steps to be taken looking to the change.

It is held that the constitution of the State, which provides for this form of government, is susceptible of two constructions, as to whether the change should be made at an election by a majority of the qualified voters, or whether it must be done by a majority of those participating. Leaders who worked for the change will be glad to see the question decided by the Supreme Court of the State, as it has never been before that tribunal.

It is pointed out that in case the Supreme Court held a majority of the electorate was required to be cast for the change that the municipal government of a number of cities of the State would be involved, because they are working under governments which were provided for at elections at which a majority of all voters did not favor the charge.

PARIS STORES MOBBED

Striking Clerks Smash Show Windows Before They are Ousted

Paris, Nov. 7.—The first disorders occurred Tuesday in the department stores' strike, which began at the Bon Marche, and spread to the Galleries Lafayette . Both stores were still doing business, guarded by police.

Late Tuesday scores of strikers managed to secure entrance to each of the establishments, where they started shouting that caused crowds of customers to leave hurriedly, and engaged in encounters with emloyes who had remained at work. Squads of police ousted the invaders. Several show windows were broken. The strikers are demanding recognition of the union and increased pay.

INCREASE IN PRODUCTION

Charleston, W. Va., Nov. 7.—Large increases in coal production in West Virginia were reported by the West Virginia Coal Association last night. It was claimed that the mines were now producing at the rate of 60,000,000 tons per year, or two-thirds of the normal annual output of the State. The association based its figures on reports from the various mining fields and coal-loading statistics issued by railroads.

The association report declared that production was on the increase in every field of the State and that gains were made today in union fields, where, it was said, miners continued to return to work.

POLICE THREATEN STRIKE

Members Dissatisfied Over Chief's Getting Raise in Pay.

Norristown, Pa., Nov. 7.—The members of the police force here threaten to go on strike unless they are given a sufficient increase in salary. The dissatisfaction was caused among the police officers when they learned yesterday that Chief of Police Romanus Fellman was to get an increase in salary equivalent to $1,000 a year.

The police officers are being paid at the rate of $108.33 a month or about $1300 a year.

CUT IT IN HALF

Your family shoe bill for the year can be cut in half, and more. A good way to prove this is to keep account of how long a pair of shoes lasts after we have repaired them for you. If they last as long as, or longer than, the new pair, you can easily figure the savings. It's a big item, believe us!

MORE EMPLOYES DROPPED

Four Hundred Dismissed From War Risk Service

Five hundred more War Risk employes will be dropped shortly, it was announced yesterday afternoon by Col. M. R. Wainer, chief of the personnel division. This statement was made to a contingent of the 400 employes scheduled to be let out November 15, making a total cut in the force of the bureau of nearly 1,000.

On top of these wholesale releases came word yesterday that a number of employes, not having civil service status, were discharged yesterday from the Federal Board for Vocational Education. It is pointed out that the discharges in this board yesterday were only part of a series which have been taking place within the past few weeks "to make places for permanent employes."

Reinstatement through the Civil Service Commission is the only recourse left to employes on the "permanent" rolls who have been released, Col. Wainer explained yesterday to the unfortunate ones who were called to his office.

Temporary employes, or those not on the Civil Service rolls, were told, in effect, that little could be done for them in the line of transfer, it is said.

PLUNGES INTO HOTEL

Syracuse, N. Y., Nov. 7.—A bystander and two hotel guests were seriously injured yesterday when two motor fire engines collided, driving one machine across the sidewalk and through the side of the hotel.

William Fage, a spectator, was picked up on the radiator of one machine and hurled through the side of the Winchester Hotel. He probably will die.

Two guests, sitting in the lobby were, struck by the engine and badly injured. Four firemen also received serious injuries.

CALOMEL HORROR TOLD BY DODSON

You Don't Need to Sicken Gripe, or Salivate Yourself to Start Liver

You're bilious, sluggish, constipated. You feel headachy, your stomach may be sour, your breath bad, your skin sallow and you believe you need vile, dangerous calomel to start liver and bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling splendid. It is perfectly harmless so give it to your children any time. It can't salivate.

NEW YORK GRAFT

Police, Gamblers and "Vice Trust" Linked by Prober

New York, Nov. 7.—Investigation of New York's police department with intimations that it might result in sensational revelations of an alliance with the under world, was begun today by the extraordinary grand jury originally called to consider radical activities.

James E. Smith, an assistant of District Attorney Swann, who conducted a series of spectacular raids, last winter to put an end to gambling and vice, was the chief witness yesterday. He asserted, it was learned, that he could show "graft trails" leading from the police to the "gambling ring" and the "vice trust."

As the first step in establishing his contention, Smith delivered to the grand jurors his celebrated "police blue book" naming officers he asserts have been involved in corrupt practices.

KENTUCKY GOES WET

Eighty-Four Counties Give Five Hundred and Four Majority

Louisville, Ky., Nov. 7.—With complete unofficial returns giving Edwin P. Marrow, Republican, a majority of slightly less than 30,000 votes over Governor James D. Black, Democrat, in Tuesday's gubernatorial election, interest yesterday turned to the contest as regards the state wide prohibition amendment.

Of the 120 counties in the State, 84 showed complete unofficial returns last night, giving the "wets" a majority of 564 votes. At the office of the Kentucky Anti-Saloon League it was said that "as the remaining thirty-six counties unheard from are "dry" there was no doubt that the amendment would be carried by a 5,000 majority."

Out of the 84 counties heard from, 48 gave a "wet" majority of 32,847. The remaining 61 gave a "dry" majority of 32,283.

FOUR SAILORS DROWN

Destroyer Long's Boat Turns Turtle in Narragansett Bay in Gale

Newport, R. I., Nov. 7.—Four sailors probably were drowned yesterday when a naval launch containing nine men from the destroyer Long capsized during a gale in Narragansett Bay. Seaman Arthur H. Shannon was rescued when almost exhausted from a rock over which great seas were breaking and four others were taken from the water after a half hour's battle with the waves. Search for the missing is being continued.

HANGS ON OFFICIAL COUNT

Danville, Va., Nov. 7.—It will take the official count of Tuesday's election to determine whether W. H. Bunting, "the old soldier" candidate for reelection to the State-house from Pittsylvania and Danville, has defeated J. S. Adams, Republican, of Gretna. Adherents to both candidates claim majorities ranging from 20 to 30 votes. All of the regular nominees for State and county officers were re-elected yesterday in this section. State Senator William A. Garrett, of Henry county, swept the district and State Senator George T. Rison, of Pittsylvania, goes back to the house.

Where Can I Find Relief From Itching, Terrifying Eczema?

Question on Lips of Afflicted.

There is a harrassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source, which is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., which acts by cleansing the blood. Get a bottle to-day, and you will see results from the right treatment. WILL FIGHT PROHIBITION

Governor-Elect Edwards of New Jersey Will Labor to Defeat Measure

Jersey City, N. J., Nov. 7.—Governor-elect Edward J. Edwards announced today that he would use all lawful methods to prevent prohibition in New Jersey.

"For its enforcement by the Federal government I shall not be responsible," he said. "I construe my election as an indication of the feelings of the people of this State concerning national prohibition. They are unqualifidly opposed to it. Holding their mandate, I shall use all the lawful methods to preserve inviolate the sovereignty of the people.

"What I shall do will depend on subsequent legislation. This Congress has determined that one half of one per cent of alcohol makes a drink intoxicating. The next Congress may decide on 10 per cent. I shall ask for the best legal advice as to the power of New Jersey in concurrent legislation."

GRAND THEATRE

A certain "Peachy young friend newlywed" in her desire to curtail expenses to help husband, discovers her new hubby in a strange room with a strange lady, and under very strange circumstances.

You will enjoy it immensely.

INGOMAR THEATRE

Vivian Martin, with Niles Welch playing opposite her, will be the attraction at the Ingomar Theatre today. This latest Paramount production is called "Little Comrade" and was made from a short story by Juliet Wilbor Tompkins.

"Fatty" Arbuckle" will be shown an an extra attraction in "Oh, Doctor."

RICHMOND THEATRE

"Back to God's Country," an adaptation form "Wapi, the Walrus," James Oliver Curwood's famous magazine story, will be seen at the Richmond Theatre today.

The story has its setting in the Canadian wilderness, from which it switches to the frozen Arctic northlands, where some of the most unusual scenes ever known to motion pictures were filmed.

The Great Painless Corn Loosener. Simple as A. B. C. Never Fails.

VERY CLOSE TO A VOTE

Republican Senator Prevents Roll Call Upon Hitchcock's Motion

The Senate was very close yesterday to a vote on ratification of the treaty without any reservations or amendments. An objection made by Senator Jones, Republican, of Washington, was all that prevented, the roll from being called on a motion by Senator Hitchcock, the administration leader, to accept the treaty just as it was brought from Paris by President Wilson.

Senator Hitchcock's motion came as the climax to a long parliamentary wrangle over the question of procedure, after Senator Lodge had submitted to the Senate the program of reservations agreed upon by the majority members of the Foreign Relations Committee. Hitchcock's motion caused great commotion on the floor as Senators gathered in groups to discuss what their action on the motion should be. Members of the House in large numbers flocked into the Senate chamber in anticipation of witnessing the taking of the vote. But Senator Jones' objection sent them all back again to their end of the Capitol.

LOCOMOTIVE KILLS THREE

Explodes and Members of Train Crew Are Blown to Bits

Erie, Pa., Nov. 7.—One of the big freight engines used on the Bessemer road between Conneaut Harbor and Albion blew up late yesterday afternoon, killing three men. The dead are Fireman Frank McCommons, Flagman George Fugit and Engineer Frank Noel, all residents of Albion. Their bodies were blown to atoms and remains were picked up in baskets, being scattered over a distance of 300 yards along the track. The engine was reduced to a scrap heap. No cause for the accident has been given.

ATTACK PROHIBITION

New York, Nov. 7.—If the wartime prohibition act was made law, it has lost its validity by the passing of the war emergency—this was the basis of an attack upon the law made by ex-Judge Walter C. Noyes, counsel for wholesale liquor dealers, who are seeking an injunction from Judge Learned Hand in the Federal District Court to restrain Federal revenue officers from interfering with the removal of liquor from bonded warehouses. Distilled liquor estimated at $70,000,000 in value is involved in the decision in the case.

RUNNING NECK AND NECK

Result of Contest for Governor Said to be Still in Doubt

Baltimore, Nov. 7.—Official count of the votes for governor, which began yesterday, has reduced the plurality of Albert C. Ritchie, Democrat, over Harry W. Nice, Republican, to 166. The unofficial tabulation had given Ritchie a lead of 326.

The Democrats are certain to control the new legislature, but the Republicans are confident that the completion of the official count will show that Nice had been elected governor.

The final returns are hinging on the votes at Elbow, a voting place in the mountains of Garrett County, where a severe cut in Ritchie's plurality was experienced.

Nice's confidence in his election was bolstered by the new returns issued at short intervals. It is considered possible that a recount of the actual ballots will have to be made by the house of delegates before the final results are determined.
